

A woman with long, wavy brown hair is shown in profile, looking down and to the left. She is wearing a quilted jacket with a vibrant rainbow gradient, transitioning from yellow at the top to orange, red, and blue at the bottom. The jacket has a white inner lining and a white collar. A small, rectangular patch with the word "Molo" is visible on the upper chest area. The background is a plain, light-colored wall. The overall aesthetic is modern and colorful.

Outerwear Collection
Autumn Winter 2021

Molo

RECYCLED RECYCLED

Carefully Crafted, Sustainable Outerwear

An essential part of Molo's sustainable journey is the responsible production of our designs in materials that are better for our planet.

For the Autumn-Winter Outerwear Collection 2021, we continue our use of certified recycled nylon and polyester fabrics to create sustainable outerwear styles in the highest quality. By transforming post-consumer waste into new resources, we are repurposing the materials, giving them a second life. In addition, the production of recycled fibres requires far less energy than that of new fibres and generates less CO2 emissions.

Molo's outerwear is designed to outlast an active lifestyle in the great outdoors. Crafted from high-quality materials, it provides all the necessary functional details a child could ever need.
